KAIMO TAMM

Senior Full Stack & Blockchain Developer

@ thecrazydev524@gmail.com   🔗 https://talenteddev-b0efe.web.app/   📍 4 Lai St Tallinn, Harjumaa, Estonia

SUMMARY

Senior Full Stack & Blockchian Developer with 7 years of experience in the software industry.

Proficient in building robust and large scalable user-focused websites and applications with modern testing frameworks and tools such as Husky, Cypress, Eslint, Jest, and Storybook.

Experience in Software life cycle phases like Requirement Analysis, Implementation, and estimating the timelines for the project.

Motivated to combine the art of design with the art of programming.

Expertise in both front-end and back-end development, coupled with my ability to work collaboratively with cross-functional teams, enables me to deliver innovative solutions that meet the needs of clients and end-users alike.

With a commitment to staying up-to-date with the latest technologies and industry trends, I am confident in my ability to drive success and exceed expectations in any development role.

I love the agile development methods and focus on delivering cool stuff and the most efficient way to fulfill the objectives.

EDUCATION

Bachelor of Computer Science

Tallinn University of Technology (TalTech)

📅 2013 - 2017

EXPERIENCE

Senior Full Stack & Blockchain Developer

EXZO NETWORK

📅 06/2021 - Present   📍 Remote, USA

- Developed indexed database architecture using SQl procedures and triggers for 10 different applictions
- Building highly scalable RESTful web services using Node.js / Express.js
- Developed various screens for the front end using React, Angular, Next and used various predefined components from NPM (Node Package Manager) and Redux library
- Worked on Confidential's security dashboard for products, focusing on writing code, maintenance, and support, fixing both back-end and client-side bugs
- Good hands-on expertise in working with the JavaScript frameworks and libraries like React, Next, Angular, jQuery, Ajax, Node, and backbone.js
- Implemented a common styling with the help of CSS across entire application that controls color, layout, width, height, font size, images size and accomplished other graphic related features.
- Built and maintained strategic relationships with potential investors and business partners and brainstormed new ideas
- Performed code check-in, check-out, merging and branching into Git and stayed up-to-date along with the team.

SKILLS

Programming languages

HTML/CSS/SASS   Javascript (ES6)

Typescript   C#   php

Frontend

React / Redux / Context / Hook/Next

Angular   Vue / Nuxt / Vuex / Vuetify

Material UI / Tailwind CSS / MDB

Fuse   RWD   Bootstrap   JQery

SCSS / LESS   Graphic Design

UX / UI Design   Adobe

Backend

Node / Express   .NET   Rest API

Laravel   ASP.net Core

Database

MongoDB   PostgreSQL   MariaDB

MySQL

Blockchain

Smart contract   NFT   Web3

D-Apps   Ethers

Service

CI/CD   AWS   Docker   Azure

EXPERIENCE

Expert Frontend Developer

Axmit

📅 08/2019 - 05/2021　📍 Sepapaja 6, 15551 Tallinn, Estonia

Axmit designs and develops custom web and mobile applications for startups and small-medium enterprises. We are approached to test and implement an idea, create a functional prototype, develop it into a full-fledged product, create teams that constantly support and improve the product.

- Designed and developed front-end GUI for over 25 applications using React, Next, Angular, Tailwind CSS, MUI, SASS, Fuse, mdbreact
- Expertise in Automation, Web Application Testing and end to end (e2e) testing frameworks like JSHint, Junit, Jasmine.
- Having experience of deploying and configuring applications for cloud services like AWS and Azure
- Configured OIDC (Open ID Connect) on top of OAUTH 2.0 authentication and authorization framework to provide the security to rest web services
- Developed Graphical User Interface (GUI) to display report data using JQuery in Cross-browser compatibility and Web Application scaling
- Created visual presentations to the end user, using HTML5, JavaScript, React, Redux, ES6, TypeScript, and ReactJS

Frontend Developer

Singleton

📅 2017 - 06/2019　📍 Lõõtsa 8, 11415 Tallinn, Estonia

Singleton creates digital products and services. We invent and build custom software that makes sense. We put our clients' needs first and create a solution specifically to their needs.

- Develop, maintain and update several dashboards using React as the primary framework.
- Involvement in all stages of Software development life cycle including Analysis, development, Implementation, testing and support.
- Involved in development of User Interface using HTML/HTML5, CSS/CSS3, JavaScript, and jQuery, AJAX, JSON and Angular.JS
- Created package.json for Bower and NPM Bower and NPM Angular UI (Angular Bootstrap) for ng-grid, and UI components
- Completed of training UX and UI designimplementation
- Took part in training course for teamwork, versioncontrolling and project management.
- Developed my team-work skills by working includecollaboration with other students

PROJECTS

Exzo Network

🔗 https://moonstartoken.com

Exzo Network is a lightning-fast Layer-1 blockchain enabling users and developers to build EVM compatible decentralized apps, games, DeFi protocol's, and scaling solutions.

- Developed frontend using Webflow, Weglot, CivicTheme, React / Hooks / Redux / Context, React Native, Typescript and implemented RESTful APIs
- Worked on building the APIs and interfaces to communicate apps and implementing MVP architecture for Agile Development
- Worked on providing the best user experience and making the app work for multiple screens
- Implemented Task Management related modules

MOONStAR

🔗 https://moonstartoken.com

MoonStar is a community-based andcommunity-driven token,guaranteeing complete and uttertransparency through every stepwith MoonStar.

- Developed frontend using php, Bootstrap, particle.js, OWL-Carousel, JQuery
- Implemented core modules, models, controllers, providers, commands, observers, basic libraries and APIs to run the huge system from scratch. Played role of Lead Developer

STRENGTHS

Quick Learner
Always think about the opportunities for growth of the company

Communication
Clear and Effective communication with team members

Vision
Ability to set goals, focus, organize, prioritize, communicate and delegate
